

# HOW TO GET YOUR SAFETY EYEWEAR

## 1. OBTAIN AN EYESAFE ACI FORM

The **ACI Form** has been tailored to your company requirements. Ensure your ACI Form has the **name and phone number** of the appropriate **authorized safety officer or human resources personnel**.

## 2. VISIT YOUR OPTOMETRIST

Book an appointment with your optometrist for an eye examination. **Present your ACI Form upon arrival at your optometrist's office.** A list of participating Saskatchewan optometrists can be found at [eyesafesk.ca](http://eyesafesk.ca) and searched by name or location. Look for the **Eyesafe logo** to find a participating optometrist.

## 3. CHOOSE YOUR EYEWEAR

The trained staff at your optometrist's office will follow the specific criteria set up for your company to ensure you are provided with the **safety eyewear you require**. Once you have received your safety eyewear, you may return at any time for adjustments at **no charge**.
